Community leaders have the right and responsibility to remove, edit, or reject comments, commits, code, wiki edits, issues, and other contributions that are not aligned to this Code of Conduct, and will communicate reasons for moderation decisions when appropriate.

### Scope

This Code of Conduct applies within all community spaces, and also applies when

an individual is officially representing the community in public spaces. Examples of representing our community include using an official e-mail address, posting via an official social media account, or acting as an appointed representative at an online or offline event.

#### Enforcement

Instances of abusive, harassing, or otherwise unacceptable behavior may be reported to the community leaders responsible for enforcement at  
( Victor Fay-Wolfe )

All complaints will be reviewed and investigated promptly and fairly.

All community leaders are obligated to respect the privacy and security of the reporter of any incident.

#### Enforcement Guidelines

Community leaders will follow these Community Impact Guidelines in determining the consequences for any action they deem in violation of this Code of Conduct:

##### 1. Correction

Community Impact: Use of inappropriate language or other behavior deemed unprofessional or unwelcome in the community.

Consequence: A private, written warning from community leaders, providing clarity around the nature of the violation and an explanation of why the behavior was inappropriate. A public apology may be requested.

##### 2. Warning

Community Impact: A violation through a single incident or series of actions.

Consequence: A warning with consequences for continued behavior. No interaction with the people involved, including unsolicited interaction with those enforcing the Code of Conduct, for a specified period of time. This includes avoiding interactions in community spaces as well as external channels like social media. Violating these terms may lead to a temporary or permanent ban.

##### 3. Temporary Ban

Community Impact: A serious violation of community standards, including sustained inappropriate behavior.

Consequence: A temporary ban from any sort of interaction or public communication with the community for a specified period of time. No public or private interaction with the people involved, including unsolicited interaction with those enforcing the Code of Conduct, is allowed during this period. Violating these terms may lead to a permanent ban.

##### 4. Permanent Ban

Community Impact: Demonstrating a pattern of violation of community standards, including sustained inappropriate behavior, harassment of an individual, or aggression toward or disparagement of classes of individuals.

Consequence: A permanent ban from any sort of public interaction within the community.

This Code of Conduct is adapted from the Contributor Covenant, version 2.1, available at [https://www.contributor-covenant.org/version/2/1/code\\_of\\_conduct.html](https://www.contributor-covenant.org/version/2/1/code_of_conduct.html). Community Impact Guidelines were inspired by Mozilla's code of conduct enforcement ladder. Decisions (How will they be made? Majority, consensus, other?)

- Consensus between both people as long as we both agree it is reasonable.

Attendance (What are your expectations for the frequency and type of attendance?; What are legitimate reasons for missing? What do missing members have to do to make up for missed meetings)

- Meet every single class preferably. Legitimate reasons: Any real reasons, sick, transportation problems, etc. Illegitimate: no notice in advance, "didn't want to show up" (pretty self explanatory)

Assignments (How will assignments be made? How will the group deal with members who do not complete (or poorly complete assignments?)

- Pair coding, one person comments, another codes and can switch. Work collaboratively but separately on 'easier' things like design.

Participation (How will you communicate and share information; How will you ensure full participation of everyone? How will you honor member strengths and interests?)

- Share information via- snapchat, email, through SCRUM doc. What we will do should be discussed beforehand to ensure equal participation. Both have open minds for ideas but agree on what is best or easiest for both of us to complete efficiently.

Meeting Times and Locations/Mediums (How will you decide on locations and times that suit all members?)

- At least once or twice a week, mostly in class (meet in the library if worst comes to worst and agree on time).

Agenda and Minutes /Notes (Who will take them, how will they be shared?)

- Agenda and notes will be documented on SCRUM doc, the doc is already shared between both partners.

Promptness (What do you expect and how will you handle lateness?)

-Lateness is acceptable as long as we are not falling behind in progress, it is not a big issue if the partner is not done with something in time.

Conversational Courtesies (How will the team encourage and reinforce active listening, sharing of the airtime, tangents, respectful dialogue, etc )

- Just being respectful and open to new ideas, and communicating about changes.

Enforcement/ Feedback (How will the team enforce its own rules? How do individuals prefer to give and receive feedback?)

- Be honest with each other, even if its harsh because we are both fairly understanding.
